Product description

Based on our tried-and-tested Easy Connect UHD, we are now presenting the exclusive special edition for the 50th anniversary: The 8K Ultra High Speed HDMI cable supports the high-quality entry into the new home entertainment and gaming generation and, with data rates of up to 48 Gbit/s, delivers the full bandwidth of the data range of current 8K (up to 60 Hz) and 4K (up to 120 Hz) Ultra HD signals. The 3D sound formats Dolby Atmos and DTS are transported loss-free to a connected AV device by the Easy Connect UHD. The solid plugs with a 40° angle (the sides are angled mirror-inverted, see photo) guarantee maximum signal stability, the inner conductor is made of oxygen-free copper (OFC) and the cable is triple-shielded, providing high-quality protection against interference signals.
