Width 235mm

Height 160mm

Product description

The Oehlbach DA Converter of the extra class converts digital to analog audio signals. High resolution coded signals are recorded via a coaxial or optical input. A switch is used to select the desired input and the subsequent output is a 2-channel RCA output. Inside the device, a high-quality Cirrus Logic chip takes over the loss-free conversion from digital to analog. The handy DA Converter is suitable for audio sources in PCM format and supports audio signals up to 192kHz/24Bit. The USB port or the power supply plug is used for power supply. (Dolby and DTS formats are not decoded).

Product properties

Features	24kt gold plated contacts, 100% contact reliability, precise and stable Cirrus Logic Chips
Housing material	Ultra thin single conductors
Bit depth	24Bit
Plug type 2	Jack, 2 x Cinch socket
Connection type	Audio
Plug type 1	TOSLINK, cinch socket
Sampling rate	192 KHz
Product Category	Electronics
Colour	Metallic Brown
Temperature range:	-15 to + 45 °C
