| Length | 235mm |
| Width | 160mm |
| Height | 55mm |

Product description

The Oehlbach DA Converter of the extra class converts digital to analog audio signals. High resolution coded signals are recorded via a coaxial or optical input. A switch is used to select the desired input and the subsequent output is a 2-channel RCA output. Inside the device, a high-quality Cirrus Logic chip takes over the loss-free conversion from digital to analog. The handy DA Converter is suitable for audio sources in PCM format and supports audio signals up to 192kHz/24Bit. The USB port or the power supply plug is used for power supply. (Dolby and DTS formats are not decoded).

Product properties

| | |
|---------------------------|--|
| Features | 24kt gold plated contacts, 100% contact reliability, precise and stable Cirrus Logic Chips |
| Housing material | Ultra thin single conductors |
| Bit depth | 24Bit |
| Plug type 2 | Jack, 2 x Cinch socket |
| Connection type | Audio |
| Plug type 1 | TOSLINK, cinch socket |
| Sampling rate | 192 KHz |
| Product Category | Electronics |
| Colour | Metallic Brown |
| Temperature range: | -15 to + 45 °C |
