### Product description

Based on our tried and tested Flex Evolution Ultra High-Speed HDMI® cable, we now present the exclusive special edition for Oehlbach's 50th anniversary: The Flex Evolution Ultra High-Speed HDMI® cable offers breathtaking quality in 8K at 50/60 Hz or 4K at up to 120 Hz. It has a specially developed registered patent plug with integrated bend protection. Thanks to its design and material properties, this enables optimum protection of the cable against cable breakage while at the same time shortening the connector housing. The cable is PVC-free and uses only TPE (thermoplastic rubber). A high-quality OFC conductor, triple shielding and 24 carat gold-plated plugs ensure the perfect finish.
