Product description

Based on our test winner, the Oehlbach Scope Vision, we now present the exclusive special edition for Oehlbach's 50th anniversary: The Oehlbach Scope Vision 5G is a compact indoor antenna that offers outstanding DVB-T2 HD reception. The stylish DVB-T2 HD antenna works with any external DVB-T2 HD receiver or TV with a built-in DVB-T2 tuner.

Excellent reception in proven Oehlbach quality

Thanks to the new 5G filter, the antenna is protected against interference from LTE & 5G frequencies, which are very close to the frequency range of the DVB-T2 signal. In addition, the new Scope Vision 5G receiver is more powerful and ensures even lower noise reception. The Oehlbach Scope Vision 5G receives the necessary power via USB cable. It can therefore also be powered directly from the TV. If you prefer to use a power socket, you can do so using the power adapter supplied.

Flexible installation

The Oehlbach Scope Vision 5G is very compact and also extremely flexible when it comes to positioning: whether upright, horizontal or mounted on the wall with screws, you can position or attach the antenna directly where it receives the strongest signal. The 3 meter antenna cable (connected to the receiver or TV) also offers maximum freedom.

Product properties

Colour	Schiefergrau
Characteristic impedance	Eliminates high-frequency irradiation
Lizenzen	DVB-T2, DVB-T2-HD
Plug type 1	antenna male, USB 2.0 Type A
Connection type	Audio, Video
Quality level	Excellence
cable length	3 m
Product Category	Antenna
Housing material	More than five Inputs
