Width	160mm
Height	55mm

Product description

The top-class Oehlbach DA Converter converts digital to analog audio signals. High-resolution encoded signals are recorded via a coaxial or optical input. The desired input can be selected using a switch and the subsequent output is via a 2-channel RCA output. Inside the device, a high-quality Cirrus Logic chip performs lossless conversion from digital to analog. The handy DA converter is suitable for audio sources in PCM format and supports audio signals up to 192kHz/24Bit. Power is supplied via the USB port or the power supply plug. (Dolby and DTS formats are not decoded).

Product properties

Article width	68
Article height	23
Article depth	53
Features	High-quality transmission with a pure sound, High quality anodised aluminium
Quality level	Performance
Connection type	Audio
Sampling rate	192 KHz
Product Category	Electronics
Colour	Metallic Brown
