Product description

Discover our **USB Primus CB** - the optimal USB cable that takes performance to a new level. This high-end USB-C to USB-B cable impresses with impeccable functionality and durable materials

- **High-quality premium USB cable:** The cable is equipped with a USB-C to USB-B plug and offers reliable, loss-free signal transmission. The inner conductor made of HPOCC® (monocrystalline, oxygen-free copper) ensures particularly pure and precise data transmission. The robust yet flexible fabric jacket protects the cable from external influences and ensures a long service life.
- First-class shielding and high data transmission speed: The cable has triple shielding, which effectively reduces electromagnetic interference and thus ensures interference-free transmission. With a data transmission speed of up to 480 Mbps, it meets the requirements of high-quality digital audio and data transmissions.
- Maximum contact reliability thanks to precision-manufactured connectors: The robust metal connectors with 24-carat gold-plated contacts ensure a reliable connection and minimize contact resistance. This ensures excellent signal quality without loss of sound quality, ideal for demanding audio applications.
- Perfect for high-quality audio transmissions: This cable is specially optimized for digital audio applications, including DACs (digital-to-analogue converters), external headphone amplifiers and high-quality audio interfaces. It enables detailed and lossless sound reproduction, allowing music lovers and audiophiles to fully enjoy their favorite recordings.
- Safe hold and stable connection: Thanks to the connector socket, the cable offers a firm and secure connection in any USB socket. This prevents accidental disconnection or loose contacts, guaranteeing uninterrupted signal transmission ideal for professional and demanding use.

With its elegant design in black/gold with elegant metal plugs and high-quality workmanship, this premium USB cable is the ideal choice for anyone who demands the highest standards of reliability and durability without compromising on quality.

Experience the perfect connection - with Oehlbach!

Product properties

Product Category USB cable, Data cable cable material Solid plastic casing

Features Perfect for audio transmissions, DACs, external headphone amplifiers, etc., HPOCC® copper conductor for pure,

loss-free signal transmission, Triple shielding against interference for perfect audio quality, 24kt gold plated

contacts, Audio streaming, 30 years warranty**

Plug type 2 USB-B

Shielding triple shielding

cable length 2 m

Quality level State of the Art

Shielding

2 x aluminium foil + 1 x copper braiding

construction

Plug type 1 USB Type-C
Connection type Audio, Data
Connector solid metal plug
