Primus AC | Black/Gold | 50 cm

OEHLBACH Primus AC - USB-C® cable for fast charging and data transfer.
Compatible with smartphones, tablets and notebooks - robust and reliable.

Product number	D1C9550
Weight	0.092kg
Length	225mm
Width	140mm
Height	15mm

Product description

Discover our **USB Primus AC**, which has been specially developed for applications where the highest demands are placed on audio quality. This high-end USB-A to USB-C cable impresses with impeccable functionality and durable materials.

High-quality premium USB cable: The cable is equipped with a USB-A to USB-C connector and offers reliable, loss-free signal transmission. The inner conductor made of HPOCC® (monocrystalline, oxygen-free copper) ensures particularly pure and precise data transmission. The robust fabric jacket protects the cable from external influences and ensures a long service life.

First-class shielding and high data transmission speed: The cable has triple shielding, which effectively reduces electromagnetic interference and thus ensures interference-free transmission - particularly essential when transmitting high-resolution audio data. With a rapid data transmission speed of up to 10 Gbps, it meets the requirements of high-quality digital audio and data transmissions.

Multi-purpose: It provides a first-class connection for devices with USB Type-C ports, such as high-end audio amplifiers, DACs (digital-to-analog converters) and other high-quality audio components. In audiophile setups where lossless and stable data transfers are crucial for perfect sound reproduction, the Primus AC sets the standard.

Safe hold and stable connection: Thanks to the connector socket, the cable offers a firm and secure connection in every USB socket. This prevents accidental disconnection or loose contacts, guaranteeing uninterrupted signal transmission - ideal for professional and demanding use.

Maximum contact reliability thanks to precision-manufactured connectors: The robust metal connectors with 24-carat gold-plated contacts ensure a reliable connection and minimize contact resistance. This ensures excellent signal quality without loss of sound quality, ideal for demanding audio applications.

With its elegant design in black/gold with fine metal plugs and high-quality workmanship, this premium USB cable is the ideal choice for anyone who demands the highest standards of reliability and durability without compromising on quality.

Experience the perfect connection - with Oehlbach!

Product properties

Product Category	USB cable, Data cable
cable material	Solid plastic casing
Features	Perfect for audio transmissions, DACs, external headphone amplifiers, etc., HPOCC® copper conductor for pure, loss-free signal transmission, High-end USB-A to USB-C cable for audiophile applications, Triple shielding against interference for perfect audio quality, 24kt gold plated contacts, Audio streaming, 30 years warranty**
Max. Ladeleistung	60 W
Transmission rate	10 Gbps
Shielding	triple shielding
Quality level	State of the Art
Plug type 1	USB 3.2 Gen 1 Type-A
Shielding construction	2 x aluminium foil + 1 x copper braiding
cable length	50 cm
Connection type	Audio, Data
Connector material	solid metal plug
Plug type 2	USB Type-C
Signal direction	IN/OUT
Inner conductor material	HPOCC® – mono-crystalline oxygen-free copper inner conductor
cable geometry	Round
Colour	Black/Gold
