- Delay-function
- 2 USB sockets for charging devices
- Aluminium front panel
- German Technology

DESCRIPTION

The Oehlbach Power Station 1009 is the premium power strip for anyone who values the best possible power quality. With its integrated isolating transformer, high-quality filters and 24-carat gold-plated contacts, it supplies hi-fi and home cinema devices with absolutely clean power. The robust full metal housing provides reliable protection against interference from the environment, while overvoltage, overload and temperature protection offer maximum safety. Thanks to digitally and analog filtered outputs, sensitive devices enjoy noise-free operation and full performance. The solid front made of brushed aluminum rounds off the Powerstation 1009 not only technically, but also visually perfectly - for uncompromising quality in every detail.

TECHNICAL DATA

Weight	16.55 kg
Length	660 mm
Width	480 mm
Height	215 mm
Load capacity (watts)	2300
Input current (amperes)	10

Inner conductor material	OFC - oxygen-free copper
Mains voltage	230 V / 50 Hz
Housing material	metal housing, Safety plug (CEE7/7) IEC cord connector (C13)
Colour	Black
Quality level	State of the Art
Product Category	Power strips
