DESCRIPTION

The Oehlbach Flat Style One has been developed to enable a sharp and clear reception of digital signals. The development department at Oehlbach has created an antenna that combines state-of-the-art technology with exceptional design. The Flat Style One can be installed within minutes and is easy to use. The antenna features a specially developed receiver system which detects signals through 360 degrees (horizontal and vertical signals). This means no further adjustment is required after the one-off installation process.
