Product description

High-quality stereo speaker cable for connecting amplifiers or power amplifiers with speaker boxes - for amplifier power up to approx. 600 watts power per amplifier channel. The use of silver-plated, oxygen-free OFC copper as conductor material ensures that this speaker cable has an extremely clear and lifelike sound image. With the help of silver plating, an even further improved high-frequency reproduction is produced. The outer jacket of this Oehlbach cable is made of a durable and very flexible plastic compound, which makes the cable particularly smooth to lay.
