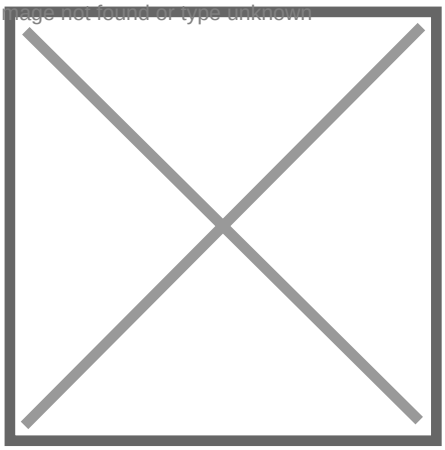
Black Connection digital | 75 cm



Product number	D1C13823
Weight	0.503kg
Length	50mm
Width	250mm
Height	200mm

Product description

Very exclusive digital-electrical cinch cable with a constant impedance of 75 ohm. The inner conductor's revolutionary design ensures previously unheard of low intrinsic resistances with extremely high levels of purity. Even the monocrystalline transitions in the cast HPOCC are filled with pure silver during the "Silver Gap HPOCC" production process. This produces an almost seamless structure in the conductor and creates the ideal electrical conditions for the transmission of signals. Full-metal silicone-pin screw plugs plated with 24-carat gold connect this valuable inner conductor practically resistance-free to any type of audio component in home hi-fi or home-cinema systems. The high technical requirements are also satisfied by the cable's exterior: The plugs' exteriors have been fitted with genuine leather and are really pleasant to handle.

Product properties

Features	24kt gold plated contacts, 100% contact reliability, Made in Germany, 30 years warranty**
Characteristic impedance	Eliminates high-frequency irradiation
cable length	75 cm
Plug type 1	RCA
Colour	Black
Connector material	High-quality fabric sheathing
Product Category	Digital audio cable
Quality level	State of the Art
Surface condition	24 carat gold-plated contacts
Connection type	Audio
Shielding	Quadruple shielding
Plug type 2	RCA
Signal direction	IN/OUT
Inner conductor material	HPOCC® – mono-crystalline oxygen-free copper inner conductor
Shielding construction	1 x aluminium foil + 2 x copper braiding, 2 x aluminium foil + 2 x copper braiding
cable geometry	Round
