DESCRIPTION

The Oehlbach plug Hyper Cut Cool Gold is a high-quality audio plug for demanding audio applications. The plug is made of robust metal and is equipped with 24 carat gold-plated contacts, which ensure reliable signal transmission and guarantee optimal sound. The plug is suitable for use with cables with a diameter of up to 11mm and is mounted by solder contact. Due to its high-quality workmanship and precise manufacturing, the plug offers high durability and interference-free signal transmission. The plug is ideal for use in home theater systems, hi-fi systems and other audio applications where excellent sound quality is required. The Hyper Cut Cool Gold plug is therefore an ideal solution for anyone looking for a high-quality connection for their audio equipment.
