

# Speaker Wire SP-15 | white | 20 m

<b>Product number</b>	D1C195
<b>Weight</b>	1.21kg
<b>Length</b>	90mm
<b>Width</b>	70mm
<b>Height</b>	90mm

## Product description

Excellently made stereo loudspeaker cable wound on to a mini coil. This loudspeaker cable is suitable for amplifier performances of up to around 150 watts of power per amplifier channel. The use of oxygen-free copper (OFC) as the conducting material ensures that an extremely clear and true-to-life sound can be achieved with this loudspeaker cable. The cable has also been made from very many ultrathin stranded copper wires – each individual wire possesses a cross-section of around 0.125 mm. This complex design means that the cable is particularly conductive and flexible throughout.

## Product properties

<b>Inner conductor material</b>	OFC - oxygen-free copper
<b>cable material</b>	plastic
<b>Layout</b>	Mini coil
<b>Features</b>	30 years warranty**, Stereo speaker cable
<b>Amplifier power</b>	Recommended up to 150 Watt
<b>Colour</b>	Transparent
