For professional assembly of audio cables. Secure connection, easy installation.

Product number D1C104165

Weight 0.013kg

Product description

The Oehlbach plug Hyper Cut Cool Silver is a high-quality audio plug for demanding audio applications.

The plug is made of sturdy metal and is equipped with 24 carat gold-plated contacts, which ensure reliable signal transmission and guarantee optimal sound.

The plug is suitable for use with cables up to 8.5mm in diameter and is mounted by solder contact.

Due to its high-quality workmanship and precise manufacturing, the plug offers high durability and interference-free signal transmission.

The connector is ideal for use in home theater systems, hi-fi systems and other audio applications where excellent sound quality is required.

The Hyper Cut Cool Silver plug is therefore an ideal solution for anyone looking for a high-quality connection for their audio equipment.
