

Transform Dual-Plug | 5 m

| | |
|----------------|----------|
| Product number | D1C10842 |
| Weight | 1.19kg |
| Length | 70mm |
| Width | 220mm |
| Height | 320mm |

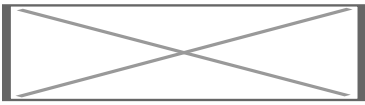

Product description

One Cable - Four Connections - Infinite Possibilities Our new Transform Dual-Plug speaker cable is the game-changer for your home entertainment. Two cable strands, each consisting of four individually stranded and insulated OFC strands, form the inner workings of the new Excellence cable. From the outside, these are protected by a high-quality fabric jacket in an elegant design. OFC is a high-purity, oxygen-free copper, which is perfectly suited as an inner conductor material due to its excellent electrical conductivity and particularly low resistance. There are two screw threads at both ends of the cable, which can be individually equipped with the supplied adapters (a total of 8x banana plugs and 8x cable lugs). Both the screw threads and the adapters have 24 ct gold plating to ensure maximum contact reliability. The solid metal plug of the adapters also contributes to this. With the freedom to choose between banana plugs and cable lugs at both ends, we achieve an unmatched dimension of freedom in home entertainment with our Transform Dual-Plug.

Product properties

| | |
|--------------------------|---|
| Amplifier power | For amplifier performances of up to 600 watts |
| Inner conductor material | OFC - oxygen-free copper |
| Colour | Black |
| cable cross section | 2 x 6.0 mm² |
| Plug type 2 | 2 x cable lug, 2 x banana plug |
| Plug type 1 | 2 x cable lug, 2 x banana plug |
| Connection type | Audio |
| Connector material | gold-plated connector plug, solid metal plug |
| Quality level | Excellence |
| cable geometry | Flat |
| Product Category | Loudspeaker cable |
| Signal direction | IN/OUT |
| Features | Stereo speaker cable, German Technology |
