### Product description

Experience a secure and reliable plug-in connection with the high-quality Oehlbach USB Plus cable. Thanks to its outstanding features, you can count on excellent performance. The 24 carat gold-plated contacts ensure perfect contact reliability and a stable connection. The robust metal connectors ensure long-lasting use and easy handling.

The USB Plus cable is made of highly flexible OFC (oxygen-free copper) material, which enables lossless signal transmission. Whether you want to stream audio, connect a DAC (digital-to-analog converter) or a printer, this cable is best suited for various applications. With a specification of USB 3.2 Gen 2 and a speed of 10 Gbps, the cable offers fast and efficient data transfer. You can be sure that your data will be transferred in the shortest possible time without compromising on quality.
