Product description

With its 24 carat gold-plated contacts, the Oehlbach USB Evolution cable is an absolute guarantee for perfect contact security and a reliable connection. The double shielding completely eliminates all interference, while the robust metal plug ensures a firm hold. Thanks to the SPOFC (silver-plated oxygen-free copper) material, loss-free signal transmission is possible. The cable is also characterized by its high flexibility, which makes it available in different lengths and with different connector variants. With a data transfer rate of up to 20 Gbps and a charging capacity of up to 60 watts, the Oehlbach USB Evolution cable meets the requirements of the latest technology. Whether connecting peripheral devices or charging mobile end devices, this cable guarantees a reliable and stable connection. Our smart connection socket makes it easy to connect the cable to a cell phone with a protective case.
