Powersocket 908

€395.00 RRP incl. VAT

Product number **D1C13040**

EAN **4003635130407**

OFC
OXYGEN FREE COPPER

DESCRIPTION

OEHLBACH´s Powersocket 908 is a multiple socket that is in a class of its own and that has been perfectly realized to satisfy even the highest of demands made at the top end of the segment. The multiple socket possesses a total of eight individual sockets – four digital (filtered) and four analogue (unfiltered) plug sockets. The Powersocket 908 possesses phase marks at the individual plug sockets and the correct connections are indicated by a red control lamp in order to ensure that the equipment´s phases are properly connected. This is the only way to effectively prevent potential-equalization currents from interfering with audio and image data. The inner conductor´s cross-section of 3.3 mm², which has been made from highly pure oxygen-free copper, constitutes genuine high-end inner cabling and will guarantee stable power supplies in any situation – even for components with high power requirements. Power cord supplied with the delivery.

TECHNICAL DATA

Weight	2.8 kg
Length	460 mm
Width	200 mm
Height	200 mm
Inner conductor material	OFC - oxygen-free copper
Mains voltage	230 V / 50 Hz
Quality level	State of the Art

Colour	Silver
Product Category	Power strips
Surface condition	Socket strip: 24 carat gold-plated contacts
Housing material	2 plug-socket groups (filtered / unfiltered) may be switched individually
cable cross section	3.3 mm²
Operating voltage	230V / 50Hz
