

Powersocket 908

Product number D1C13040

Weight 2.8kg

Length 200mm

Width 200mm

Height 460mm

Product description

OEHLBACH's Powersocket 908 is a multiple socket that is in a class of its own and that has been perfectly realized to satisfy even the highest of demands made at the top end of the segment. The multiple socket possesses a total of eight individual sockets – four digital (filtered) and four analogue (unfiltered) plug sockets. The Powersocket 908 possesses phase marks at the individual plug sockets and the correct connections are indicated by a red control lamp in order to ensure that the equipment's phases are properly connected.

This is the only way to effectively prevent potential-equalization currents from interfering with audio and image data. The inner conductor's cross-section of 3.3 mm², which has been made from highly pure oxygen-free copper, constitutes genuine high-end inner cabling and will guarantee stable power supplies in any situation – even for components with high power requirements. Power cord supplied with the delivery.

Product properties

Inner conductor material OFC - oxygen-free copper

Mains voltage 230 V / 50 Hz

Quality level State of the Art

Colour Silver

Product Category Power strips

Surface condition Socket strip: 24 carat gold-plated contacts

Housing material 2 plug-socket groups (filtered / unfiltered) may be switched individually

cable cross section 3.3 mm²

Operating voltage 230V / 50Hz
