

## Silverline SP-15 | 6 m

Product number D1C331 Weight 0.3kg

## Product description

Excellently made stereo loudspeaker cable wound on to a mini coil. This loudspeaker cable is suitable for amplifier performances of up to around 150 watts of power per amplifier channel. The use of silver-plated oxygen-free copper (OFC) as the conducting material ensures that an extremely clear and true-to-life sound can be achieved with this loudspeaker cable. The use of silver to refine this cable helps further improve the reproduction of trebles. The cable has also been made from very many ultrathin stranded copper wires – each individual wire possesses a cross-section of around 0.125 mm. This complex design means that the cable is particularly conductive and flexible throughout.

## Product properties

Plug type 1 open end
Plug type 2 open end
cable material plastic
cable length 6 m

Inner conductor material SPC/OFC - silver-plated oxygen-free copper

Connection typeAudioQuality levelExcellencecable cross section2 x 1.5 mm²

Features Silver content of 8g / kg, 30 years warranty\*\*, Stereo speaker cable, Certified production in Europe

Product Category Loudspeaker cable

Signal direction IN/OUT cable geometry Round

Amplifier power Recommended up to 150 Watt

**Colour** Transparent
