

Rattle Snake 3 SP-30 | 8 m

Product number D1C352 Weight 0.71kg

Product description

Now available as a practical mini coil. High-quality and particularly flexible stereo speaker cable for connecting amplifiers or power amplifiers with speaker boxes. The speaker cable is suitable for amplifier power up to approx. 300 watts power per amplifier channel. The cable consists of three stranded strands of OFC copper (oxygen-free copper) and three stranded strands of SPC copper (silver-plated oxygen-free copper). This special construction brings - due to the proportion of silver-plated conductors - a significantly improved transmission especially in the high / mid-range! The outer jacket of this Oehlbach cable consists of a durable and flexible plastic mixture.

Product properties

Plug type 1 open end Plug type 2 open end

Inner conductor material OFC - oxygen-free copper, SPC/OFC - silver-plated oxygen-free copper

cable cross section 2 x 3.0 mm²

cable length8 mLayoutMini coilQuality levelExcellence
