DESCRIPTION

High-quality stereo speaker cable for connecting amplifiers or power amplifiers with speaker cabinets for amplifier power of up to approx. 400 watts per amplifier channel. The use of silver-plated, oxygen-free OFC copper as conductor material ensures that this speaker cable has an extremely clear and natural sound. The silver plating further improves the high frequency reproduction. The outer sheath of this Oehlbach cable is made of a hard-wearing and very flexible plastic mixture, which makes the cable particularly easy to lay.
