

Transmission Ultra | 10 m

OEHLBACH Transmission Ultra - High-quality coaxial antenna cable with high shielding for interference-free TV reception. For DVB-T2, cable TV and satellite.

Product number	D1C22525
Weight	1.26kg
Length	320mm
Width	220mm
Height	70mm

Product description

Digital high-end antenna cable for the transmission of high-resolution audio and image data. External interference stands no chance thanks to the use of a very compact sheath current filter. This five-star antenna cable's inner conductor is manufactured from highly pure, oxygen-free HPOCC® copper, its fivefold shielding means that its signal transmission is almost perfect and loss-free. The shielded full-metal plug helps make the transmission of highly sensitive HDTV signals extremely stable – particularly at the critical material transitions.

Product properties

Product Category	antenna cable
Shielding effectiveness	125 dB
cable length	10 m
Features	24kt gold plated contacts, Reliable contact, 30 years warranty**, German Technology
Characteristic impedance	Eliminates high-frequency irradiation
capacity	52 pF/m
Colour	Black/Grey
Connector material	High-quality fabric sheathing
Plug type 1	antenna male
Screen resolution	1080p Full HD, 4K UHD 50/60 Hz
Shielding	Five times shielding
Quality level	State of the Art
Connection type	Audio, Video
Plug type 2	Anntenna female
Signal direction	IN/OUT
Inner conductor material	HPOCC® – mono-crystalline oxygen-free copper inner conductor
cable geometry	Round
