**Product number** D1C358

**Weight** 1.75kg

### Product description

Now available as a practical mini coil. High-quality and particularly flexible stereo speaker cable for connecting amplifiers or power amplifiers with speaker boxes. The speaker cable is suitable for amplifier power up to approx. 600 watts power per amplifier channel. The cable consists of three stranded strands of OFC copper (oxygen-free copper) and three stranded strands of SPC copper (silver-plated oxygen-free copper). This special construction brings - due to the proportion of silver-plated conductors - a significantly improved transmission especially in the high / mid-range! The outer jacket of this Oehlbach cable consists of a durable and flexible plastic mixture.

### Product properties

<b>Amplifier power</b>	For amplifier performances of up to 600 watts
<b>Inner conductor material</b>	OFC - oxygen-free copper, SPC/OFC - silver-plated oxygen-free copper
<b>cable length</b>	10 m
<b>cable cross section</b>	2 x 6.0 mm <sup>2</sup>
<b>Layout</b>	Mini coil
<b>Quality level</b>	Excellence
<b>cable geometry</b>	Individually stranded strand bundles, Round
<b>Product Category</b>	Loudspeaker cable
<b>Features</b>	Stereo speaker cable, Certified production in Europe
<b>Colour</b>	Transparent
