Based on our test winner, the Oehlbach Scope Vision, we now present its successor: The Oehlbach Scope Vision 5G is a compact indoor antenna that offers outstanding DVB-T2 HD reception. The chic DVB-T2 HD antenna works with any external DVB-T2 HD receiver or TV with built-in DVB-T2 tuner.
Excellent reception in proven Oehlbach quality Thanks to the new 5G filter, the antenna is protected against interference from LTE & 5G frequencies, which are very close to the frequency range of the DVB-T2 signal. In addition, the new receiver of the Scope Vision 5G is stronger and ensures even lower noise reception. The Oehlbach Scope Vision 5G gets the necessary power via USB cable. It can therefore also be supplied with power directly from the TV. Those who prefer to use a power outlet can do so via the included power adapter.
Flexible set-up The Oehlbach Scope Vision 5G is very compact and also extremely flexible in terms of placement: Whether upright, horizontal or mounted on the wall with screws - you can place or mount the antenna directly where it receives the strongest signal. The extra-long antenna cable (is connected to the receiver or TV) also offers maximum freedom.

TECHNICAL DATA

Weight	0.434 kg	**Connection type**	Audio, Video
Length	350 mm	**Quality level**	Excellence
Width	140 mm	**Mains voltage**	5V - 40mA
Height	37 mm	**Product Category**	Antenna
Colour	Black	**Signal direction**	IN
Plug type 1	antenna male, USB 2.0 Type A	**Housing material**	More than five Inputs
Transmission standard	DVB-T2
