Product description

For the connection of digital antenna television DVB-T2 or cable television this Oehlbach Transmission Shift cable with female and male end connects devices such as TV or receiver with the antenna or cable connection box. The two straight-angled antenna connector sleeves are pre-mounted to the Transmission Shift antenna cable. Transmission Shift brings with it an impedance of 75 ohms, a maximum one hundred percent contact area - complete with 24 carat gold-plated contacts. Thanks to high corrosion resistance, optimal transmission of image and sound signals is guaranteed for many years.
