XXL® MasterClock

High-End USB Data Regenerator

An accurate and stable clock as well as an interference-free power supply are the essentials of a high-quality USB connection. The XXL MasterClock completely regenerates the USB data signal and provides connected devices with a pure, jitter-free data stream with ultra-precise clock speed. Thanks to the absolutely clean power supply guaranteed by a high-quality Class 1 switch mode power supply, the performance of connected devices is optimised to the maximum. The device is ideally suited to amplifiers and digital/analogue as well as analogue/digital converters and offers very flexible set-up thanks to its compact dimensions.

Available from september

Features

- ✓ Many diverse setup options and flexible use
- ✓ Completely newly generated USB data signal and impedance matching for the DAC
- ✓ Ultra-precise cycle/clock
- ✓ Maximisation of the performance of the connected devices
- ✓ Ideal for amplifiers, analogue/digital - digital/analogue converters
- ✓ Gold-plated contacts for perfect signal transmission
- ✓ Very high-quality Class 1 switch-mode power supply

Technical Data

Weight	0,378 kg
Scope of delivery	7.5V AC/DC power adapter, power cable
Voltage supply	6-8V/DC
Permissible relative humidity:	5 - 95 %
Temperature range:	5-50°C
Dimensions	54 mm x 23 mm x 63 mm

Designation	Art. No.	Unit	Colour
XXL® MasterClock	13904		metallic brown
