SIGNAL DIRECTION

ANTENNA SPLITTER 1:2

ANTENNA SP 12

MSRP (19%): 27.49

With the practical antenna distributor from Oehlbach, two TV sets or receivers can be connected to a single antenna socket. Due to the high shielding factor of over 110 dB and two high-quality resistors of 42 ohms each, a high-quality and loss-free doubling of the signal is guaranteed. Compact dimensions also ensure that the module can be easily accommodated. The distributor in a shielded metal housing is suitable for DVB-C as well as for terrestrial television according to the current DVB-T2 standard.

This 2-way antenna distributor is used to connect two TV sets or receivers to one antenna socket.

DVB-T2 HD

DVB-T2 HD is an initiative of ARD, Medienanstalten, Mediengruppe RTL Deutschland, ProSiebenSat.1 Media SE, VPRT and ZDF. We don't use their logo, we just mention the name „DVB-T2 HD“ so customers know that our device is compatible.
