The Oehlbach DualPower 20 is a versatile and powerful USB charger that optimally supplies almost any mobile device thanks to its extensive support of modern charging protocols - including Power Delivery (PD), QC, AFC, FCP and Apple Fast Charge. With a total output of 20 watts, it enables fast and efficient charging, whether for smartphones, tablets or accessories.

The combination of USB-A and USB-C makes the DualPower 20 a universal companion for everyday use and when traveling.

The charging power at the USB-A port is: 18 watts and the charging power at the USB-C port is: 20 watts. When using both ports simultaneously, 15 watts are available per port.

As you would expect from Oehlbach, the charger impresses with its high-quality workmanship, integrated protection mechanisms and maximum safety - for reliable charging around the clock.
