## Speaker Wire 40

Speaker Wire 40 is a high-quality stereo speaker cable made of OFC copper. It is designed for use in Hi-Fi systems and home audio setups. The cable features a 2 x 4,0 mm<sup>2</sup> conductor configuration, which allows it to handle up to 400 W of power. It is highly flexible and durable, making it easy to install in various environments. The cable is sold by the meter, allowing you to purchase the exact length you need. The outer jacket is made of a durable material that protects the internal conductors from damage. The braided shield helps to reduce interference and ensures clear sound reproduction. The cable is available in a variety of colors and finishes to match your system's aesthetic.
