Weight	0.71kg
Length	90mm
Width	90mm
Height	70mm

Technical Specifications

The speaker wire is made of high-quality OFC copper, which ensures excellent conductivity and low signal loss. The cable is designed for use in stereo systems and can handle up to 250 W of power. It is highly flexible and easy to install, making it ideal for home audio applications. The cable is sold by the meter, allowing you to purchase the exact length you need. The outer jacket is made of a durable material that protects the inner conductors from damage and environmental factors. The overall construction is robust and reliable, ensuring long-term performance and durability.

Product Features
