Product Description

The OEHLBACH Series 2 RCA audio cable is designed for high-fidelity audio reproduction. It features a silver-plated OFC (Oxygen-Free Copper) inner conductor, which provides excellent conductivity and minimizes signal loss. The cable is also equipped with multi-layer screening to protect the signal from external electromagnetic interference (EMI) and radio frequency interference (RFI). This combination of materials and construction ensures a clear, detailed, and balanced sound, making it an ideal choice for Hi-Fi and home cinema systems. The gold-plated RCA connectors are not only aesthetically pleasing but also provide a secure and corrosion-resistant connection to your audio equipment.
