Technical Specifications

The OEHLBACH Series 80 optical Toslink cable is designed for high-quality digital audio transmission. It features a blue braided outer jacket and gold-plated metal connectors for durability and optimal signal transfer. The cable is compatible with a wide range of audio equipment, including TVs, soundbars, and AV receivers.

The cable is constructed with 217 individual optical fibers, providing a data transfer rate of up to 125 Mbps. This makes it ideal for high-resolution audio formats. The length of the cable is 10 meters, and it is available in a 24k gold-plated version for enhanced performance.

The OEHLBACH Series 80 CO is a premium optical Toslink cable, featuring a blue braided jacket and gold-plated connectors. It is designed for precise digital audio transmission, with a data transfer rate of up to 12.8 Mbps. The cable is compatible with a wide range of audio equipment, including TVs, soundbars, and AV receivers.
