## Product Description

The OEHLBACH Speaker Wire 7 is a high-quality stereo speaker cable. It features two conductors of 0,75 mm<sup>2</sup> cross-section, providing excellent conductivity and low resistance. The cable is made of OFC (Oxygen-Free Copper) and is highly flexible, making it easy to install in any environment. It is suitable for Hi-Fi systems and home cinema setups. The cable is sold by the meter, allowing you to purchase the exact length you need. The gold-plated terminals ensure a secure and corrosion-resistant connection to your speakers.
