Speaker Wire SP-25

Speaker Wire SP-25 is a high-quality stereo speaker cable made of OFC copper. It is designed for Hi-Fi and home audio systems. The cable is 2-core, with a cross-section of 2 x 2,5 mm². It is highly flexible and durable, making it easy to install. The cable is sold by the meter, allowing you to purchase the exact length you need. The maximum power handling is up to 250 W. The cable is available in a length of 30 m. The price is 0,125 per meter. The cable is made of OFC copper, which is known for its excellent conductivity and low resistance. This ensures that the signal is transmitted with minimal loss and distortion. The cable is also highly flexible, making it easy to route around corners and obstacles. The blue jacket is durable and provides protection against wear and tear. The cable is suitable for use in both indoor and outdoor environments.
