Technical Specifications

The cable is designed for high-quality audio and video transmission. It features a braided shield and a double braid for superior signal integrity. The gold-plated connectors ensure corrosion resistance and optimal contact. The cable is compatible with HPOCC® technology, providing exceptional performance for HDTV, Blu-ray, and other high-resolution content.

Features and Benefits

- High-quality braided shield and double braid construction.
- Gold-plated connectors for corrosion resistance and optimal contact.
- Compatible with HPOCC® technology for superior performance.
- Supports HDTV, Blu-ray, and other high-resolution content.
- State of the Art design.
- Length: 1.20 m.
- Weight: 0.265 kg.
- Dimensions: 40mm diameter, 250mm length, 145mm connector length.
