

Transmission Ultra S | 1.20 m

OEHLBACH Transmission Ultra S - Satellite cable with high shielding and 24-carat gold-plated F-connectors. For interference-free satellite TV reception in HD.

OEHLBACH Transmission Ultra S	D1C22627
Weight	0.272kg
Length	320mm
Outer diameter	220mm
Inner diameter	40mm

Technical specifications

The OEHLBACH Transmission Ultra S satellite cable is designed for high-quality reception. It features a braided shield and a central conductor for optimal signal transmission. The gold-plated F-connectors ensure a secure and corrosion-resistant connection. The cable is suitable for all standard satellite TV services, including HD and 4K UHD. The length of 1.20 m provides flexibility in installation. The outer jacket is made of high-quality PVC, ensuring durability and resistance to environmental factors. The cable is tested according to the HPOCC® standard, guaranteeing reliable performance.

Features and benefits

- High shielding for interference-free reception
- 24-carat gold-plated F-connectors for secure connection
- High-quality braided shield and central conductor
- Outer diameter: 220mm
- Inner diameter: 40mm
- Length: 1.20 m
- Weight: 0.272kg
- State of the Art technology
- Compatible with all standard satellite TV services
- Tested according to HPOCC® standard
- High-quality PVC outer jacket
- Reliable performance for HD and 4K UHD reception
