Technical Specifications

The OEHLBACH Series 1 X audio cable is designed for high-fidelity audio reproduction. It features a silver-plated OFC (Oxygen-Free Copper) inner conductor, which provides excellent conductivity and minimizes signal loss. The cable is shielded with a multi-layer screening to protect against electromagnetic interference (EMI) and radio frequency interference (RFI), ensuring a clear and detailed sound. The connectors are gold-plated to prevent oxidation and maintain consistent contact. The cable is suitable for use in Hi-Fi and home cinema systems.
